

Financial Risk Assessment

Background

As part of the external audit process and the Annual Governance and Accountability Return, the Council is asked to consider and approve an annual governance statement, The Council will need to confirm that it carried out an assessment of the risks facing the smaller authority and took appropriate steps to manage those risks, including the introduction of internal controls and/or external insurance cover where required. Answering yes to this statement will mean that the Council has “considered the financial and other risks it faces and has dealt with them properly”.

This document provides part of the evidence that that assessment of risk was carried out and has itself been drawn up in accordance with the Council’s Risk Management Policy. Members are encouraged to consider the risks identified below by the Clerk/RFO but also to explore other potential risks and to suggest amendments/additions to this risk assessment before it is passed to Full Council
