

Westbourne Parish Council: Risk assessment for volunteer litter picking.

This form should be completed by the lead volunteer. You will see that the points below are just common sense and are worth considering to ensure your event runs as smoothly and safely as possible.

As the organiser of the litter pick you should ensure that all volunteers know the risks and understand the control measures before clearing any litter. It is sensible to address all volunteers and introduce yourself as the lead volunteer/organiser, so they know who to go to with questions/to report an incident. You should also check that all volunteers know what equipment they must use and what area they may clean up. Also advise that a copy of the risk assessment is available on request.

Name: Cllr Kate McNicol and Clare Kennett (Clerk to the Parish Council)	Date: 22 March 2021	Phone: 07775654483	Location of litter pick: Westbourne village
---	------------------------	-----------------------	--

Before starting your clean up ensure all volunteers:

- Have the correct Personal Protective Equipment (PPE) – e.g. suitable gloves, hi-viz vest, sensible footwear, weather appropriate clothing etc.
- Have the correct equipment – e.g. litter grabbers, plastic bags, dog waste bags, brush, shovel etc and know how to use the equipment.
- Consider all the risks and hazards in the work area, e.g. hazardous waste **such as Asbestos**, broken glass, dog waste, vomit, needles, condoms and roads/cycle ways, thorny bushes, low branches, uneven ground, hidden banks etc.
- Know the work area and how to report incidents or hazardous or unidentified waste, where to get first aid, meet on completion, deposit bags of waste and mark bags containing sharp material e.g. broken glass.
- If hazardous waste, or suspected hazardous waste, is found it must be left in-situ and must not be touched. Inform the District Council of the location of the waste for them to arrange for removal.

Use the table below to score the risks in the **Risk Assessment Table**.

Likelihood (a)		Severity (b)		Magnitude = a x b
Certain	5	Fatality	6	2 x 3 = 6 i.e. LOW RISK
Probable	4	Serious Disablement	5	
Even Chance	3	Sprain, Major Cuts/Bruises	4	High Risk = 21 to 30
Possible	2	Minor Cut/Strain	3	Medium Risk = 11 to 20
Unlikely	1	Minor Bruises/Grazes	2	Low Risk = 2 to 10

Risk Assessment Table

HAZARD	RISK	CONTROLS	MEASURES TO REDUCE EFFECT IN THE EVENT OF AN ACCIDENT	Score	Risk
Covid-19	Transmission of Covid-19 from face-to-face contact with other members of the public or contaminated surfaces.=	<ul style="list-style-type: none"> • Test and Trace in place at The Meeting Place. • Follow the latest government guidance. • Read information sheet before litter pick. • Provide individual litter pick kits for each person or family group. • Clean and wash kit between each usage • Provide hand sanitiser and cleaning materials for kit after use. • Wear gloves provided and face mask where appropriate. 	Seek medical attention where appropriate. Thoroughly wash hands before and after litter pick, or use hand sanitiser. Wear a face mask where appropriate.	2x3=6	LOW
Needles	Cuts & infections	<ul style="list-style-type: none"> • Leave alone and report to event organiser to dispose of in sharps container using litter grabber, or report to council for removal. 	Seek medical attention where appropriate.	2x3=6	LOW
Broken glass, sharp/rusty edges	Cuts & infections	<ul style="list-style-type: none"> • Suitable gloves to be worn at all times. • Use litter grabbers to pick up sharp litter. • Broken glass or other sharp objects should be swept onto a shovel or picked up with a scoop or litter picker • It is recommended that participants should have up to date tetanus protection. 	Seek medical attention where appropriate. Thoroughly wash any cuts or abrasions as soon as possible, however minor.	2X3=6	LOW
Heavy/awkward to handle rubbish	Pulled muscles & strains	<ul style="list-style-type: none"> • Assess the weight of any load before handling. Extreme care to be taken, use good lifting practices and share the load with an appropriate number of people. • If too heavy to handle leave the object in place and report it to the organiser to arrange removal by the council. • Do not leave sacks of litter or sweepings where they will be danger. 	Stop immediately if suffering any pain or discomfort. Seek medical attention if the ill effects persist.	2X3=6	LOW
Asbestos, batteries & miscellaneous chemicals	Potentially dangerous depending on condition	<ul style="list-style-type: none"> • Do not approach or remove any potentially hazardous waste. • Report to the council for disposal. 	Seek medical attention if exposed to pesticides, insecticides or other chemicals – record any label details.	2X3=6	LOW
Ground conditions	Sprains, muscle	<ul style="list-style-type: none"> • Avoid dangerous areas and choose the 	Thoroughly wash any cuts	2X4=8	LOW

	damage & broken bones.	safest possible route over difficult ground. <ul style="list-style-type: none"> • Instruct volunteers to wear suitable footwear. 	or abrasions as soon as possible, however minor. Seek medical attention for any serious cuts, bruises or strains.		
People, lone working	Physical or verbal assault	<ul style="list-style-type: none"> • Be aware of aggressive and difficult people. • Withdraw rather than face conflict. • Do not work out of sight of others in the group. • Organiser/section leader to have mobile phone. • Keep together and stay off private property. 	Seek medical attention following any assault / injury.	2X3=6	LOW
Animals – Domestic, wild & farm	Lymes Disease carried by animal ticks & bites/scratches from animals	<ul style="list-style-type: none"> • Wear appropriate clothing. • Wear appropriate clothing • Beware of loose dogs. • Avoid contact with animals. Avoid contact with animal faeces. 	Seek medical attention as soon as possible after being bitten or scratched. Wash hands immediately after contact with faeces. Avoid touching eyes or mouth.	2X4=8	LOW
Waterside diseases	Weil's Disease from rat's urine	<ul style="list-style-type: none"> • Do not touch dead animals. • Cover any cuts or sores with a waterproof plaster before carrying out a litter pick. • Avoid getting hands wet in rivers, ponds or canals. 	Seek medical attention where appropriate. Thoroughly wash any cuts or abrasions as soon as possible, however minor	2X4=8	LOW
Dog faeces	Toxocara canis	<ul style="list-style-type: none"> • Do not touch dog faeces. • Always wear gloves and use a shovel when removing dog faeces. 	Thoroughly wash your hands. Thoroughly wash any cuts or abrasions as soon as possible, however minor. Seek medical attention where appropriate.	2X4=8	LOW
Adverse Weather Eg Thunder storms	Various health issues	<ul style="list-style-type: none"> • Cease work in inappropriate conditions. • Avoid working in extreme conditions. • Dress for conditions & carry additional clothing. • In the event of extreme weather conditions the litter pick should be postponed or abandoned 	Seek medical attention where appropriate.	2X3=6	LOW
Cliffs and, steep slopes	Falls leading to sprains, muscle damage & broken bones.	<ul style="list-style-type: none"> • Instruct volunteers to stay away from these areas. • Avoid picking on or close to the edge of cliffs, steep slopes etc and below unstable cliffs & slopes. Take weather conditions and possible weather changes into account. 	Seek medical attention where appropriate.	1X4=4	LOW

		<ul style="list-style-type: none"> • Seek medical treatment in the event of injury. • Take account of tides. 			
Electric fences	Electrocution	<ul style="list-style-type: none"> • Always assume electric fences are live. • Warn volunteers not to touch electric fences 	Seek medical attention where appropriate.	2X3=6	LOW
Water, marshes, bogs	Hypothermia, drowning.	<ul style="list-style-type: none"> • Avoid banks, especially if they appear unstable. Always work in pairs if close to water. • Shower and change into warm dry clothing if immersed. • Never allow children to work in these areas. • Adults should be cautious & non-swimmer must not litter pick near water 	Seek medical attention where appropriate.	2X3=6	LOW
Hedges, fences, walls, ditches		<ul style="list-style-type: none"> • Take care when climbing stiles particularly in wet weather. • Avoid climbing walls, ditches and fences. • Stay within the nominated location. 		2X3=6	LOW
Tools, equipment		<ul style="list-style-type: none"> • Team to be shown how to use equipment if appropriate. • Allow sufficient working area for the correct and safe use of the tool. • Use appropriate protection • First aid training. • Have first aid kit available. • Volunteers must use the equipment provided and as instructed. 	Obtain medical attention in the event of injury.	2X3=6	LOW
Trees, shrubs	Trips, cuts & eye pokes	<ul style="list-style-type: none"> • Be alert to the risks and keep a look out for hazards. • Be aware of low hanging branches and exposed tree and shrub roots. 	Obtain medical attention in the event of injury.	2X3=6	LOW
Irritants, dangerous plants	Poisoning, skin irritations or allergic reactions	<ul style="list-style-type: none"> • Wear the gloves provided. • Beware of dangerous plants and possible adverse reactions. • Wash thoroughly on completion of such operations. 	Seek medical attention for unusual or suspicious symptoms after contact with vegetation.	2X4=8	LOW

On Completion of the Litter Pick Ensure:

- Everyone washes their hands thoroughly as soon as possible after the litter pick and before taking any food or drink.
- Any wounds are redressed after cleaning and disinfecting if there has been any contact with water.
- Volunteers carry out a personal inspection for cuts etc.
- That the area covered is inspected to see if there is any hazardous material still present. If so record for reporting to the Council.
- All volunteers have reported back and all equipment is collected back in.

- All rubbish for collection has been left in the arranged pick up site.
- Any bags containing sharp material, eg broken glass, have been marked using the spray can.
